

Right Angle USB cable - A/MicroB

PRODUCT ID: 1318

- **Description**

This here is your standard A to micro-B USB cable, for USB 1.1 or 2.0, but with a twist! Literally! Instead of the cable coming straight out from the connector, there's a right angle bend. We thought this might make a good pair for a Raspberry Pi **Model A or B** as the cable doesn't stick out as far. We got cables with extra-beefy 24 AWG power wires, and 28 AWG data lines, so it's particularly good for power-hungry devices like micro-computers and phones.

This cable isn't suggested for **Model B+** since the microUSB moved around the corner - this cable blocks the HDMI port!

Approximately 5 feet / 1.5 meter long.

- **Technical Details**

- Length: 56.25" / 1.42m
- Weight: 56.13g
