Note : 25 pcs/pack
Each sprue holds 4 coding keys and yields a total of 100 coding keys.

Coding keys are used to create keying combinations to prevent incorrect insertion. This is especially useful when multiple parts are being used together. Coding keys need to be installed on both the plug and receptacle when creating specific combinations.

Please contact a Hirose representative for details and proper use of coding keys.

◆ Coding key combination table

(Using two coding keys on the plug and three on the receptacle can make up to ten different combinations.)
